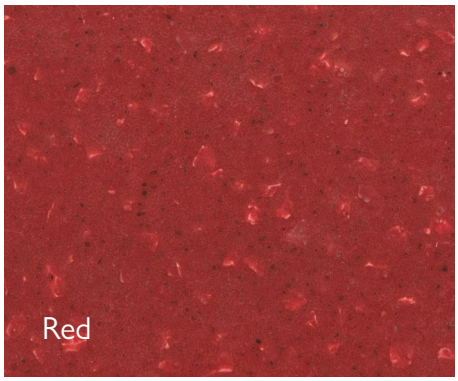
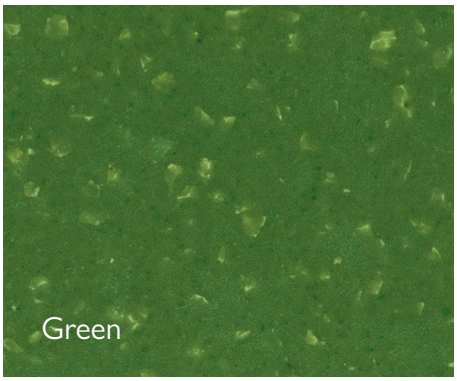
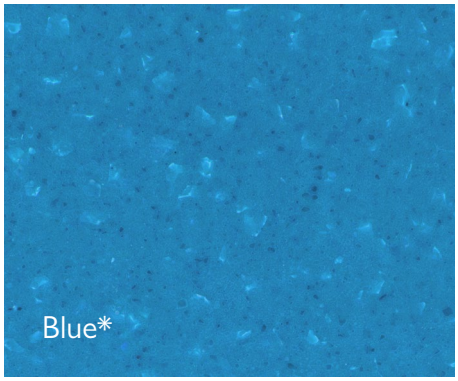
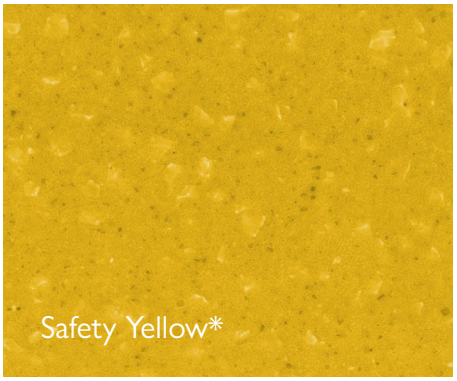
vebrocrete HF, RT & SR Systems

core colours









Please note, the applied colours may differ from the examples shown. **vebro**crete systems may exhibit a yellowing effect over time resulting from thermal, UV or chemical exposure. This will be more pronounced on light grey or blue shades, *Colours marked with an asterisk will incur an additional supplement. To discuss colour fast options, or for colour cards and samples, please contact our technical@**vebro**polymers.com
