

vebro project showcase

Midlock View Holiday Boarding, Cheshire, UK

the challenge

A brightly coloured, slip resistant floor coating system that delivered excellent durability was required for a dog holiday boarding kennel in Cheshire, UK.

meet the client

Midlock View Holiday Boarding, nestled in the heart of Middlewich in Cheshire, UK, is dedicated to offering exceptional short-term holiday boarding services for beloved canine companions while their owners embark on their own vacations.

Midlock View aims to create a cosy, secure, and enjoyable 'home-from-home' environment for these furry friends, offering an experience that mirrors the comforts they are accustomed to. With plush sofas, cozy log burners and even televisions, the goal is to make their stay as comfortable and familiar as possible.

the project

Planning the grand opening in February 2023, Midlock view required a flooring solution that would not only meet their aesthetic requirements but also fulfil practical needs.

The chosen flooring had to possess several key qualities, including vibrant colours to uplift the ambiance, slip-resistant properties to ensure the dogs' safety and exceptional durability to withstand the daily activities of a boarding facility.

key service criteria

Robust & durable

Slip resistant finish

Easily cleaned & maintained

Wear & impact resistant

Bright & aesthetically pleasing

vebro's solution

Installed across 220 m2 of the Cheshire boarding kennels in the attractive BS 4800 shade 18E53 Bright Blue, **vebrores** EP HBC with a customised slip-resistance profile delivered a seamless, easily-cleaned surface that exhibits excellent durability and resistance to scratches.

To achieve the required slip resistance, **vebro** 54 Alox was scattered between two coats of **vebro** EP Universal. The addition of this aluminium

oxide also adds to the durability of the system, which is critical in an environment subject to the daily wear and tear of paws and claws.

The seamless, chemical resistant finish of **vebrores** EP HBC means the floor can be easily cleaned and maintained.

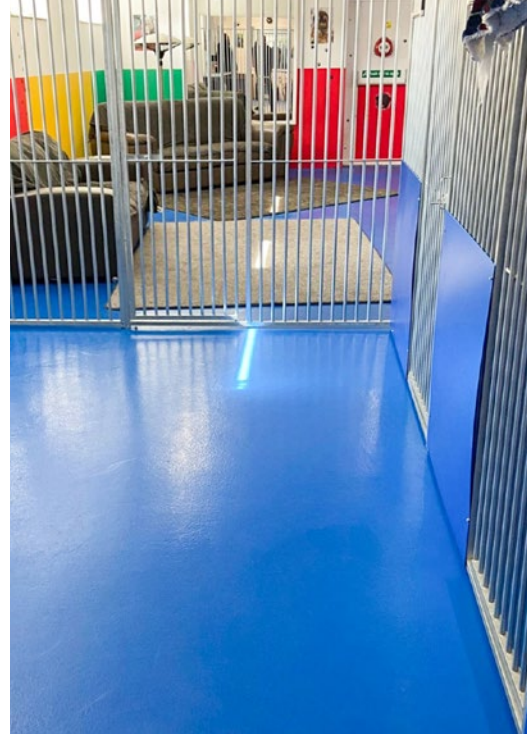

Because epoxy flooring repels dust, **vebrores** EP HBC is hypoallergenic, making it an ideal choice boarding kennels.

meet the installer

Nu-Floor Polymers is dedicated to providing tailored flooring solutions to suit clients across a range of industries.

Nu-Floor Polymers has broad experience in installing heavy-duty industrial floor coating systems in factories, warehouses and automotive facilities, as well as resin-bound driveways and fast-cure flaked garage flooring for residential properties.

Working directly with facilities, property managers, architects, designers and build contractors to understand the client's requirements, Nu-Floor Polymers is keen to deliver impressive quality with minimal disruption.
