

vebrocrete:
seamless food grade
polyurethane concrete
for food processing

vebropolymers

why choose **vebro**crete?

vebrocrete is a range of polyurethane concrete flooring systems suitable for use in environments subject to thermal shock / cycling and varying degrees of chemical exposure, where it offers a wide number of performance benefits...

Full range of systems from 2.0 – 9.0 mm for all areas of food processing plants

Excellent chemical resistance to corrosive foodstuffs & aggressive cleaning solvents

HACCP International & ISEGA certified as food-safe

B_{fl}-S1 fire retardant, reduces the surface spread of flame

Ideal for environments subject to thermal shock & cycling, including flash freezing & steam cleaning

Tailored slip resistance profile to suit usage requirements across the plant

Designed to perform in a wide range of application conditions, including hotter months and humid climates!

contact the **vebro** team

We'd love to supply the flooring materials for your food processing facility, so please do not hesitate to contact the team.
