vebro project showcase

Kip & Nook, Darlington, UK

the challenge

An industrial inspired floor finish that would act as a protective coating for one of Yorkshire's newest and hippest events venues owned by luxury holiday hideaway company, Kip & Nook.

meet the client

Hidden in the grounds of a farm in the the North Yorkshire countryside. you'll find the whimsical world that is Kip & Nook – offering luxurious accommodation of all kinds.

Kip & Nook offers three luxury cabins and a barn to stay in, as well as an uber cool converted container.

The Kip & Nook property boasts a unique entertainment venue dubbed, The Workshop

the project

The Workshop is the perfect space for social gatherings including weddings and birthdays as well as the ideal place for Kip & Nook guests to unwind after a busy day exploring the countryside.

The Workshop includes a pool table, ping pong table, darts pop-up pizza restaurant and G&T and cocktails van, in a unique setting adorned with high-end vintage cars that are available to rent for the afternoon.

key service criteria

Super cool industrial aesthetic

Robust & durable

Slip resistant finish

Easily cleaned & maintained

Wear & impact resistant

vebro's solution

Installed in RAL 7031 Blue Grey across the venue, Vebro's classic self-priming solvent-free epoxy coating **vebro** EP Universal has been used at 0.60 kg / m² over two coats to deliver a super smooth, super glossy industrial-look floor finish.

vebro EP Universal is best suited to coat floors in medium duty dry processing areas where a hard-wearing floor finish is required.

meet the installer

MJF Group is an established support services company providing specialist solutions to businesses nationwide.

Since 2006 the company has built an enviable reputation in the commercial cleaning market, fuelling a later expansion into site services and specialist flooring alongside growth from local to national level.

This two-component product is easily applied, either by roller or rubber squeegee, and demonstrates excellent resistance to chemicals and cleaning agents.

The system's all round performance protects concrete substrates against a range of day-to-day service criteria.

The material is available in a wide range of standard RAL or BS 4800 classic shades.

MJFs dedicated team of flooring experts are a group of highly skilled professionals who deliver a first-class service, ensuring all of their flooring solutions achieve outstanding results within an efficient and timely manner.

MJF pride themselves on offering their clients extremely competitive prices, without ever compromising results.
