

vebrocrete HF:

heavy duty, anti-slip,
seamless food grade
polyurethane concrete

vebropolymers

why choose **vebro**crete HF?

vebrocrete HF is a heavy-duty, multi-pack, PU (polyurethane) concrete mortar system, designed for use in food and beverage processing and other heavy-industry environments subject to thermal shock & cycling, chemical exposure, and wet process conditions.

FeRFA Type 8, seamless, hygienic surface compliant with HACCP food safety guidelines

Free from LBC Red List "worst-in-class" materials including antimicrobials marketing health claims

Temperature resistant to 120°C (intermittent) 90°C (continuous) & -40°C in the cold range

Excellent chemical resistance; organic acids / alkalis, solvents, corrosives & other foodstuffs

Fire retardant, low flammability & low smoke emission, reduces surface spread of flame

Single layer, moves with concrete slab, minimum 10 years working life if maintained correctly

contact the **vebro** team

We'd love to supply the flooring materials for your food processing facility, so please do not hesitate to contact the team.
